Director of photography based in Paris working in the fields of advertising, music videos, fiction and TV series, I was trained on set by Jean-Louis Bompont, Serge Roman and Alex Lamarque A.F.C. It was on a shoot for the production company Partizan that I met the director Nico Beyer. Over time, he will integrate me into his team as a camera operator and then cinematographer of his second team on international commercials. At the same time, I was able to embark on my own projects and ensure the image of several music videos, documentaries, short films, feature films and series.
